✨ Professional Summary

Results-driven and self-taught Full-Stack Developer with 1+ year of experience specializing in the MERN stack. Skilled in building high-performance web applications, real-time messaging systems, and secure payment integrations. Proficient in developing clean, maintainable code using modern technologies such as React, Node.js, MongoDB, and Express. Strong ability to work independently and collaboratively to deliver responsive, user-focused applications.

🦝 Technical Skills

- **Frontend:** React.js, Redux Toolkit, Tailwind CSS, React Query, JavaScript (ES6+), Axios, Responsive Design
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Authorization, Socket.io
- **Database:** MongoDB, Mongoose, Data Modeling, Aggregation Pipelines
- **Payment & Auth:** Razorpay Integration, JWT, OAuth 2.0, Secure Login & Signup Flows
- **DevOps & Deployment:** Git, GitHub, CI/CD, Vercel, Render, Postman, API Testing, Debugging Tools
- **Additional:** Agile/Scrum, Clean Code Practices, Error Handling, Cloudinary, File Uploads, Realtime Notifications

---

🏜️ Projects

DevConnect – Full-Stack Social Media Platform (Real-Time Chat + Paid Features)

Stack: React.js, Node.js, Express, MongoDB, Tailwind CSS, JWT, Socket.io, Razorpay, Cloudinary - Built a fully responsive social media app with profile pages, real-time chat, and post feeds. - Developed secure **JWT-based authentication** system with route protection. - Created **connection system** (send/accept friend requests, follow/unfollow). - Enabled **paid feature activation** (blue tick) with **Razorpay** payment gateway integration. - Implemented **Socket.io** for live chat, message delivery indicators, and user presence. - Used **React Query** for client-side caching and background refetching. - Supported **image uploads** to Cloudinary with real-time preview and validation. - Deployed frontend to **Vercel**, backend to **Render**, and integrated **CI/CD** pipelines.

🐟 Education

- **Higher Secondary Education (+2), BA English (Pursuing)**

• Self-taught MERN Stack Developer through 1+ year of consistent learning (YouTube, online bootcamps)

🦅 Certifications

• **MERN Stack Developer Course** – Namaste Node.js
• **REST API & Authentication with Node.js** – Udemy
• **React Query Masterclass** – YouTube Advanced Projects

⚡ Additional Information

• Open to relocation, hybrid, and fully remote opportunities
• Enthusiastic about Data Structures & Algorithms, open-source contributions, and DevOps
• Strong skills in code versioning, testing, and debugging
